Energy Performance Certificate

3, Airebank Terrace, Gargrave
SKIPTON
BD23 3RU

Dwelling Type: Mid-terrace house
Date of Assessment: 13/09/2008
Date of Certificate: 16/09/2008
Reference Number: 8998-6721-5530-3077-8096
Total Floor Area: 117 m²

This home's performance is rated in terms of energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO₂) emissions.

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills will be.

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating the less impact it has on the environment.

Estimated energy use, carbon dioxide (CO₂) emissions and fuel costs of this home

	Current	Potential
Energy Use	316 kWh/m ² per year	259 kWh/m ² per year
Carbon dioxide emissions	5.7 tonnes per year	4.6 tonnes per year
Lighting	£106 per year	£53 per year
Heating	£733 per year	£645 per year
Hot water	£114 per year	£93 per year

Based on standardised assumptions about occupancy, heating patterns and geographical location, the above table provides an indication of how much it will cost to provide lighting, heating and hot water to this home. The fuel costs only take into account the cost of fuel and not any associated service, maintenance or safety inspection. This certificate has been provided for comparative purposes only and enables one home to be compared with another. Always check the date the certificate was issued, because fuel prices can increase over time and energy saving recommendations will evolve.

To see how this home can achieve its potential rating please see the recommended measures.

Remember to look for the energy saving recommended logo when buying energy-efficient products. It's a quick and easy way to identify the most energy-efficient products on the market. About this document

The Energy Performance Certificate for this dwelling was produced following an energy assessment undertaken by a qualified assessor, accredited by Northgate Information Solutions, to a scheme authorised by the Government. This certificate was produced using RdSAP 2005 assessment methodology and has been produced under the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007. A copy of the certificate has been lodged on a national register.

Assessors accreditation number: NGIS705063
Assessors name: Garry Andrew Fowlds

Related party disclosure:

If you have a complaint or wish to confirm that the certificate is genuine

Details of the assessor and the relevant accreditation scheme are on the certificate. You can get contact details of the accreditation scheme from our website at <http://www.northgate-dea.co.uk/> together with details of their procedures for confirming authenticity of a certificate and for making a complaint.

About the building's performance rating

The ratings on the certificate provide a measure of the buildings overall energy efficiency and its environmental impact, calculated in accordance with a national methodology that takes into account factors such as insulation, heating and hot water systems, ventilation and fuels used. The average energy efficiency rating for a dwelling in England and Wales is band E (rating 46).

Not all buildings are used in the same way, so energy ratings use 'standard occupancy' assumptions which may be different from the specific way you use your building. Different methods of calculation are used for homes and for other building types. Details can be found at www.communities.gov.uk/epbd.

Buildings that are more energy efficient use less energy, save money and help protect the environment. A building with a rating of 100 would cost almost nothing to heat and light and would cause almost no carbon emissions. The potential ratings in the certificate describe how close this building could get to 100 if all the cost effective recommended improvements were implemented.

About the impact of buildings on the environment

One of the biggest contributors to global warming is carbon dioxide. The way we use energy in buildings causes emissions of carbon. The energy we use for heating, lighting and power in homes produces over a quarter of the UK's carbon dioxide emissions and other buildings produce a further one-sixth.

The average household causes about 6 tonnes of carbon dioxide every year. Adopting the recommendations in this report can reduce and protect the environment. You should reduce emissions even more by switching to renewable energy sources. In addition there are many simple everyday measures that will save money, improve comfort and reduce the impact on the environment, such as:

- Check that your heating system thermostat is not set too high (in a home, 21°C in the living room is suggested) and use your timer to ensure that you only heat the building when necessary.
- Make sure your hot water is not too hot - a cylinder thermostat need not normally be higher than 60°C.
- Turn off lights when not needed and do not leave appliances on standby. Remember not to leave chargers (e.g. for mobile phones) turned on when you are not using them.

Summary of this home's energy performance related features

The following is an assessment of the key individual elements that have an impact on this home's performance rating. Each element is assessed against the following scale: Very poor / Poor / Average / Good / Very good

Element	Description	Current Performance	
		Energy Efficiency	Environmental
Walls	Sandstone, as built, no insulation (assumed)	Very poor	Very poor
Roof	Pitched, no insulation (assumed) Roof room(s), insulated (assumed)	Very poor Good	Very poor Good
Floor	Suspended, no insulation (assumed)	-	-
Windows	Fully double glazed	Good	Good
Main Heating	Boiler and radiators, mains gas	Good	Good
Main Heating Controls	Programmer, room thermostat and TRVs	Average	Average
Secondary Heating	Room heaters, wood logs	-	-
Hot Water	From main system	Good	Good
Lighting	No low energy lighting	Very poor	Very poor
Current energy efficiency rating		E 54	
Current environmental impact (CO ₂) rating		E 53	

Recommendations

All the measures below are cost effective. The performance ratings after improvement listed below are cumulative, that is they assume the improvements have been installed in the order that they appear in the table.

Lower cost measures (up to £500)	Typical savings per year	Performance ratings after improvement	
		Energy efficiency	Environmental Impact
1 Low energy lighting for all fixed outlets	£40	D 57	E 54
Sub-total	£40		
Higher cost measures			
2 Replace boiler with Band A condensing boiler	£123	D 63	D 62
Total	£163		
Potential energy efficiency rating		D 63	
Potential environmental impact (CO₂) rating		D 62	

Further measures to achieve even higher standards

The further measures listed below should be considered in addition to those already specified if aiming for the highest possible standards for this home.

3 50 mm internal or external wall insulation	£139	C 70	C 70
4 Solar photovoltaics panels, 25% of roof area	£47	C 72	C 72
Enhanced energy efficiency rating		C 72	
Enhanced environmental impact (CO₂) rating		C 72	

Improvements to the energy efficiency and environmental impact ratings will usually be in step with each other. However, they can sometimes diverge because reduced energy costs are not always accompanied by a reduced carbon dioxide (CO₂) emissions.

About the cost effective measures to improve this home's performance ratings

Low cost measures (typically up to £500 each)

These measures are relatively inexpensive and are worth tackling first. Some of them may be installed as DIY projects. DIY is not always straightforward, and sometimes there are health and safety risks, so take advice from an energy advisor before carrying out DIY improvements.

1 Low energy lighting

Replacement of traditional light bulbs with energy saving recommended ones will reduce lighting costs over the lifetime of the bulb, and they last up to 12 times longer than ordinary light bulbs.

Higher cost measures (typically over £500 each)

2 Band A condensing boiler

A condensing boiler is capable of much higher efficiencies than other types of boiler, meaning it will burn less fuel to heat this property. This improvement is most appropriate when the existing central heating boiler needs repair or replacement. Building Regulations apply to this work, so your local authority building control department should be informed, unless the installer is registered with a competent persons scheme^{1}, and can therefore self-certify the work for Building Regulation compliance.

About the further measures to achieve even higher standards

3 Internal or external wall insulation

Solid wall insulation involves adding a layer of insulation to either the inside or the outside surface of the external walls, which reduces heat loss and fuel bills. As it is relatively expensive it is only recommended for walls without a cavity, or where for technical reasons a cavity cannot be filled. Internal insulation, sometimes known as dry-lining, is where a layer of insulation is fixed to the inside surface of external walls; this type of insulation is best applied when rooms require redecorating and can be installed by a competent DIY enthusiast. External solid wall insulation is the application of an insulant and a weather-protective finish to the outside of the wall. This may improve the look of the home, particularly where existing brickwork or rendering is poor, and will provide long-lasting weather protection. The External Wall Insulation Association keeps a register of professional installers. It should be noted that planning permission might be required.

4 Photovoltaics

A solar photovoltaic (PV) system is one which converts light directly into electricity via panels placed on the roof with no waste and no emissions. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. The Solar Trade Association has up-to-date information on local installers and any grant that may be available. Building Regulations apply to this work, so your local authority building control department should be informed, unless the installer is registered with a competent persons scheme^{1}, and can therefore self-certify the work for Building Regulation compliance.

- b) An unimplemented resolution to designate the area a Conservation Area?

Compulsory Purchase

16. Has any enforceable order or decision been made to compulsorily purchase or acquire the property?

Not so far as is known

Contaminated Land

17. Do any of the following apply (including any relating to land adjacent to or adjoining the property which has been identified as contaminated land because it is in such a condition that harm or pollution of controlled waters might be caused on the property-

No

- a) A contaminated land notice;
- b) In relation to a register maintained under section 78R of the Environmental Protection Act 1990 -
 - I) A decision to make an entry; or
 - II) An entry; or
- c) Consultation with the owner or occupier of the property conducted under section 78G (3) of the Environmental Protection Act 1990 before the service of a remediation notice?

Informative

A negative reply does not imply that the property is free from contamination or from risk to it, and the reply may not disclose steps taken by another council in whose area adjacent or adjoining land is situated.

The Environment Act 1995 introduced a contaminated land regime forming part IIA of the Environmental Protection Act 1990 which became effective in April 2000. This change saw owner/occupiers become potentially liable for clean up costs as a Class 'B' "Appropriate Person."

Local Authorities are now responsible for preparation of reports on contamination in their respective areas and their subsequent local strategy. Local Authorities will intermittently inspect their areas in respect of contamination and take action against those seriously contaminated area. Registers of remediation notices and contaminated land identified under s.78R must also be kept. These registers do not form lists of contaminated sites; rather sites where Remediation Notices have been served. It is intended that information will also be included with regard to the condition of the land in question.

As part of the OneSearch Local Search we will inspect the remediation register where available

Radon Gas

18. Do records indicate that the property is in a "Radon Affected Area" as identified by the Health Protection Agency (a body established under section 1 of the Health Protection Agency Act 2004)?

Yes

Yes, the property is in an area where 10-30% of homes are estimated to be at or above the Action Level. See the informative paragraph below for further information that sellers are recommended to provide.

Informative

"Radon Affected Area" means a part of the country with a 1% probability or more of present or future homes being above the Action Level. Such areas are designated by the Health Protection Agency which also advises Government on the numerical value of the "Radon Action Level" (the recommended maximum radon concentration for present homes expressed as an annual average concentration in the home. Radon concentrations above the Action Level should be reduced below it and become as low as reasonably practicable).

The areas are identified from radiological evidence and are periodically reviewed by the Health Protection Agency or its predecessor the National Radiation Protection Board. Existing homes in Affected Areas should have radon measurements. The present owner should say whether the radon concentration has been measured in the property; whether the result was at or above the Action Level and if so whether remedial measures were installed and whether the radon concentration was re-tested to assess the effectiveness of the remedy.

Radon preventative measures are required for new buildings in higher risk areas. For new properties the builder and/or the owners of properties built after 1988 should say whether protective measures were incorporated in the construction of the property.

Further information on radon, including an indicative version of the radon Affected Areas map, the associated health risks and common questions and answers is available on the Health Protection Agency (HPA) web site (<<http://www.hpa.org.uk/radiation/radon/index.htm>>). Alternatively information can be requested from HPA by telephone (0800 614529 [24hr] or 01235 822622 [D/T]) or by writing to Radon Studies, Health Protection Agency, Radiation Protection Division, Chilton, Didcot, Oxon, OX11 0RQ.

3. OneSearch maintain contractual relationships with various persons involved in the conveyancing process in the UK. OneSearch will disclose on the Search Report any personal or business relationship which it has with any person involved in the sale of the Subjects who is identified at the point of ordering the search. OneSearch cannot accept any liability for failing to disclose a relationship where the involvement of a person in the transaction was not made known to it at the time of ordering the search.

Terms for Preparation of Search

4. This Search Report does not consider whether all necessary consents have been obtained. Purchasing agents are advised to obtain the necessary documentation from the vendors.
5. The information in this Search Report has been prepared following a search of (a) publicly available property related information held by the relevant local authority; and (b) property related information derived from the relevant local authority held by OneSearch. The name and address of the relevant local authority is **Craven District Council, Town Hall, High Street, Skipton, North Yorkshire, BD23 1AH.** The address of OneSearch is set out in paragraph 1 above in this Notes section. Copies of relevant documents held by the relevant local authority can be obtained by contacting the relevant local authority at the said address. Fees and contact information for obtaining copies of such documents are available on request by contacting OneSearch on 0800 052 0117 or by e-mailing cs@onesearchdirect.co.uk. The searches from which this Search Report was prepared were completed on the date this Search Report was issued (the said date of issue being the date set on page 1 of the report.)

Scope of Area Searched

6. Local Plan policies, proposals and recommendations: only those which apply directly to the Subjects of the search are disclosed.
7. Planning applications on the Subjects only, have been searched.
8. Where the Search Report shows "Not Available" in response to any question that means the question could not be answered as the information was not made available by the relevant local authority. If, as a result, information in existence prior to the completion of the Search Report is not disclosed and this results in financial loss, a claim may be made under the insurance taken out by OneSearch. (See under Liability and Insurance below)

Definition of Search Terms

9. Definition of Search terms - roads
 - . Any road (as defined by the Highways Act 1980) or part thereof which has been taken over and is maintained by the local Roads Authority is denoted as Public.
 - . Any road (as defined by the Highways Act 1980) or part thereof which has not been taken over and is not maintained by the local Roads Authority is denoted as Private.

Legal Issues

10. The Search Report has been prepared with reasonable care and skill by staff trained and employed by OneSearch .
11. The seller of the Subjects or the person acting as his/her estate agent may copy the Search Report and include it in a Home Information Pack and otherwise copy it as required by the relevant legislation.
12. These terms are enforceable against OneSearch not only by the seller of the Subjects but also by the actual or potential purchaser of, or mortgage lender in respect of, the Subjects, in their own right.

13. Any queries or complaints regarding the content of the Search Report; the manner in which the search was prepared or completed; or the service provided by staff of OneSearch should be submitted in the first instance to the Customer Services Department by telephone on 0800 052 0117 or by emailing cs@onesearchdirect.co.uk. Claims may also be made under the relevant insurance. (See also under Liability and Insurance below.)

Liability

14. . The local authority will be liable for any negligent or incorrect entry in the records searched.
- . Onesearch Direct will be liable for any negligent or incorrect interpretation of the records searched.
- . Onesearch Direct will be liable for any negligent or incorrect recording of that interpretation in the search report.
15. You should be aware that the amount of financial compensation for which OneSearch may be liable in respect of this Search Report, and the liability under said insurance policy, is limited, as a maximum, to the amount the potential or actual buyer of the Subjects in question reasonably believed to be the value (for the purposes of residential use) of the Subjects at the time the Search Report was completed.
16. If the insurance company goes out of business, compensation may be available from the Financial Services Compensation Scheme (FSCS). The Financial Ombudsman Service may also provide help in resolving disputes involving insurance companies.

IMPORTANT PROTECTION

The Search Code provides protection for homebuyers, sellers, conveyancers and mortgage lenders, who rely on property search reports carried out on residential property within the United Kingdom. It sets out the minimum standards which organizations compiling and/or selling search reports have to meet. This information is designed to introduce the Search Code to you.

By giving you this information, your search organization is confirming that they keep to the principles of the Search Code. This provides important protection for you.

The Code's Main Commitments

The Search Code's key commitments say that search organizations will:

- Provide search reports which include the most up-to-date available information when compiled and an accurate report of the risks associated with the property
- Deal promptly with queries raised on search reports
- Handle complaints speedily and fairly
- At all times maintain adequate and appropriate insurance cover to protect you
- Act with integrity and ensure that all search services comply with relevant laws, regulations and industry standards

Keeping to the Search Code

How search organizations keep to the Search Code is monitored independently by the Property Codes Compliance Board. And complaints under the Code may be referred to the Independent Property Codes Adjudication Scheme. This gives you an extra level of protection as the service can award compensation of up to £5,000 to you if you suffer as a result of your search organization failing to keep to the Code.

SEARCH REPORT INSURANCE POLICY

Policy Issuer: SPH (Scotland) Limited
Policy Number : 60-021-000000

1. Definitions

In this policy unless the context otherwise requires:

- 1.1 "Actual Loss" (which in the case of a Buyer and Potential Buyer will not exceed the amount either reasonably believes to be the value of the Land at the Policy Date and assuming residential use of the Land) means:
 - 1.1.1 in respect of a Buyer:
 - (a) the difference between the Market Value of the Land without an Adverse Entry and the Market Value as reduced by the effect of an Adverse Entry
 - (b) the cost of demolishing, altering or reinstating any part of the Land to comply with an order made by an Appropriate Body
 - (c) the amount required to pay any charges or other financial liabilities registered against the Land
 - 1.1.2 in respect of a Potential Buyer: any sums actually expended by the Potential Buyer in contemplation of buying the Land
 - 1.1.3 in respect of a Seller: actual financial loss
 - 1.1.4 in respect of a Lender: the difference between the amount of loan outstanding at the time the Lender becomes aware of an Adverse Entry and the amount recovered by the Lender on sale of the Land.
- 1.2 "Adverse Entry" means a matter affecting the Land which should be disclosed in the information provided by an Appropriate Body for the purpose of compiling a Search Report.
- 1.3 "Appropriate Body" means a local authority or other public body providing information to be included in a Search Report.
- 1.4 "Authorised Expenses" means any costs, legal fees and expenses that First Title is obliged to pay under this policy and has approved in writing.
- 1.5 "Bordereau" means the form supplied by First Title to the Policy Issuer recording insurance given in respect of individual residential properties insured under the terms of this policy.
- 1.6 "Buyer" means a person buying an interest in the Land relying upon a Search Report prepared in relation to the Land.
- 1.7 "Conveyancer" means a solicitor or licenced conveyancer acting for an Insured in relation to the purchase or sale of the Land or to a loan made to the Buyer for the purposes of purchasing the Land,
- 1.8 "First Title" means First Title Insurance plc.
- 1.9 "HIP" means a Home Information Pack produced by the Policy Issuer in accordance with the Home Information Pack Regulations 2007.
- 1.10 "Insured" means all or any of:
 - 1.9.1 a Buyer
 - 1.9.2 a Potential Buyer
 - 1.9.3 a Seller
 - 1.9.4 a Lender
- 1.11 "Know, Known or Knowing" means having actual knowledge and not constructive knowledge or notice which may be imparted by matters appearing in public records established by local government or other relevant public bodies.
- 1.12 "Land" means the interest in an individual residential property specified in the Bordereau.
- 1.13 "Lender" means a person or body making a loan to a Buyer secured over the Land.
- 1.14 "Market Value" means the average of valuations carried out by independent and suitably qualified valuers appointed respectively by the Insured
- 1.15 "Policy Date" means the date on which the Search Report was prepared.
- 1.16 "Policy Issuer" means SPH (Scotland) Limited trading as Onesearch and Onesearch Direct who will not be an insured under this Policy.
- 1.17 "Potential Buyer" means a person other than a Buyer who receives a HIP from the Seller or his agent and who relies upon a Search Report contained in it in contemplation of buying the Land.
- 1.18 "Search Report" means a report providing the information required by Regulation 9(1) of the Home Information Pack Regulations 2007 obtained from a private search provider and not directly from an Appropriate Body and incorporated within a HIP.
- 1.18 "Seller" means a person selling the Land.

2. Coverage Statement

Subject to the terms and conditions of this policy and as the circumstances may require First Title will do either or both of the following:

- 2.1 indemnify each Insured against Actual Loss incurred by that Insured by reason of an Adverse Entry which existed at the Policy Date but was not fully disclosed to that Insured in the Search Report; and/or
- 2.2 at First Title's option, defend the Insured(s) for the risks insured by this policy. First Title will also pay any Authorised Expenses that it incurs in that defence. First Title can end this duty to defend by exercising any of the options listed in paragraph 8 of this policy.
First Title will also indemnify each insured where a Conveyancer notifies First Title that that Insured has brought a claim against the Conveyancer in respect of a matter covered by paragraph 2.1 of this policy on the basis that such loss arose solely because the Conveyancer relied on the Search Report, provided that (i) the Conveyancer does not agree any payment to an Insured or third party without the prior written approval of First Title and (ii) the Conveyancer complies with the Insured's obligations under this policy.

3. Exclusions

First Title will not indemnify an Insured against Actual Loss, will not have a duty to defend and will not be obliged to pay Authorised Expenses resulting from any of the following matters:

- 3.1 risks that:
 - 3.1.1 that Insured creates, allows or agrees to at any time
 - 3.1.2 are known to that Insured but not to First Title and do not appear in any records established by the Appropriate Bodies on or before the date of the Search Report
 - 3.1.3 do not cause that Insured any loss
 - 3.1.4 occur, come into existence or are recorded in public records established by an Appropriate Body after the Policy Date
 - 3.1.5

4. Continuation of indemnity

The coverage of any insurance given under this policy does not continue to protect any purchaser from a Buyer or Lender.

5. Notification of a claim

- 5.1 An Insured must advise First Title in writing as soon as possible after that Insured becomes aware of any claim or circumstance which might entitle that Insured to make a claim under this policy. The Insured must inform First Title Insurance plc in any one of the following formats also quoting the reference being the policy number and SRIP 07/08
 - 5.1.1 by post to Legal and Claims, Title House, 33-39 Elmfield Road, Bromley, Kent, BR1 1LT
 - 5.1.2 by fax to First Title Insurance plc on 0870 389 2171

5.1.3 by e-mail to legal&claims@firsttitle.eu

5.2 First Title's obligation to an Insured under this policy may be reduced in part or in whole if that Insured refuses to co-operate with First Title and any action or omission of that Insured in these respects adversely affects First Title's ability to dispute or defend any challenge or claim or to commence any action against other persons.

6. Defence and prosecution of actions and an Insured's duty to co-operate

- 6.1 First Title may at its own expense and without unreasonable delay defend the Insured in litigation concerning any adverse matter referred to in paragraph 2.1
- 6.2 First Title will be entitled to select the lawyer to act and First Title will not be liable for and will not pay the fees of any other lawyer.
- 6.3 First Title may pursue any litigation (including appeals) to final determination by a court and reserves the right in its sole discretion to appeal any judgment or order
- 6.4 First Title will consult with the Insured on all matters arising under a claim.

7. Proof of loss

- 7.1 An Insured must give First Title a written statement detailing the amount of that Insured's loss and the method that that Insured used to compute that amount.
- 7.2 The statement must be given to First Title not later than 90 days after that Insured knows of the facts which will let the Insured establish the amount of the Insured's loss.

8. Settling claims and termination of liability

If an Insured makes a claim under this policy for which First Title is liable or in any other way First Title learns of a matter or circumstance for which First Title is or may be liable First Title can do one or more of the following:

- 8.1 pay that Insured the amount of indemnity cover in accordance with the definition of Actual Loss in paragraph 1.1 together with any Authorised Expenses; or
- 8.2 purchase the debt secured by a mortgage for the amount owed under it together with any interest and Authorised Expenses. In those circumstances the Lender must transfer or assign the mortgage together with any collateral securities and credit enhancements to First Title on receipt of payment and give all necessary notices of that transfer or assignment; or
- 8.3 pay or otherwise settle any claim with other parties for or in the Insured's name together with any Authorised Expenses; or
- 8.4 pay or otherwise settle with the Insured the Actual Loss provided for under this policy together with any Authorised Expenses.

9. Determination and extent of liability

The insurance given under this policy is a contract of indemnity against actual monetary loss. Subject to paragraphs 10 and 11 of this policy First Title's total liability under this policy (excluding Authorised Expenses) will not exceed the amounts defined as Actual Loss contained in paragraph 1.1.

10. Limitation of First Title's Liability

First Title will not be liable to indemnify an Insured:

- 10.1 if First Title removes any matter giving rise to that Insured's claim under this policy in a reasonably diligent manner by any method including litigation,
- 10.2 if First Title makes a settlement with a third party;
- 10.3 until litigation, including appeals, in relation to a claim conducted by First Title (or by an Insured with First Title's authorisation) has been finally determined by a court;
- 10.4 for liability voluntarily assumed by an Insured in negotiating or settling any claim or litigation without First Title's prior written consent.

11. Reduction of indemnity and reduction or termination of First Title's liability

The amount of indemnity cover payable by First Title under this policy will be reduced or terminated (as the case may be) by any or all of the following:

- 11.1 all payments under this policy except for Authorised Expenses;
- 11.2 the payment by any person of all or part of the debt or any other obligation secured by a mortgage or other charge over the Land or any voluntary, partial or full satisfaction or release of such mortgage or charge to the extent of the satisfaction or release; and/or
- 11.3 the amount by which an Insured's acts or omissions have increased First Title's liability or reduced First Title's ability to recover amounts from third parties

provided always that the interest of any Insured will not be prejudiced by any act or default of another Insured (not being such Insured) which might otherwise invalidate or reduce the indemnity provided by the Policy.

12. Payment of loss

When the extent of an Insured's loss and First Title's liability under this policy have been finally determined, First Title will pay that amount to that Insured within 30 days of its determination.

13. Subrogation

If First Title agrees to indemnify or defend an Insured under this policy in respect of any claim then regardless of whether or not actual payment has been made First Title will immediately be subrogated to any rights, contractual or otherwise, which that Insured may have in connection with that claim, the mortgage or the Land. If First Title asks, the Insured must transfer to First Title all of the Insured's rights and remedies against any person or property that, in First Title's opinion, might be necessary to perfect this right of subrogation.

14. Liability limited to this policy

This policy and any endorsements to it given in writing by First Title will be the entire contract between each Insured and First Title.

15. Severability

In the event that any provision of this policy is held to be invalid or unenforceable under any law, that provision may be severed from and will not be taken to have affected the remaining provisions.

16. Governing law and jurisdiction

This policy will be governed by the law of England and Wales and the courts of England and Wales.

17. Cancellation rights

No Insured will be entitled to cancel the insurance given to it so as to affect the rights of any other Insured and no refund of premium will be payable.

18. Notices

All notices required to be served on or given to First Title plc under this policy must include a reference SRIP 07/08 and the address of the Land and be delivered to the Claims Department, First Title Insurance plc, Title House, 33-39 Elmfield Road, Bromley BR1 1LT.

1. This summary.

This document provides a summary of the key features of the Search Report Insurance Policy under which insurance will be given to individual Buyers, Potential Buyers, Sellers and Lenders. This document does not contain the full terms and conditions of the Search Report Indemnity Insurance Policy. These can be found in the specimen policy document provided with this document. This summary is not part of the policy and it does not commit us to provide insurance on these or any other terms. It is important that you read the policy itself. The policy is a legally binding contract between each Insured and First Title Insurance plc.

2. The Insurer.

First Title Insurance plc provides general insurance products and is authorised and regulated by the Financial Services Authority.

3. Type of insurance.

The insurance given under the Search Report Insurance Policy protects against actual loss suffered because of any adverse circumstance which existed in the records of an Appropriate Body and affected the land at the Policy Date but was not fully disclosed in a search report compiled as part of a Home Information Pack (as defined in the Home Information Pack Regulations 2007). See Coverage statement in paragraph 2 of the policy.

4. What does the policy not cover?

Among others, the insurance given under the Search Report Insurance Policy does not cover :

- environmental contaminants or hazardous waste on or under the Land
- loss or damage arising by reason of enforcement of environmental protection legislation
- the existence of radon gas on or under the Land.

All of these exclusions are detailed in paragraph 3 of the Search Report Insurance Policy. Please read this part of the policy carefully.

5. Limitations of the Policy.

The insurance given under the Search Report Insurance Policy is a contract of indemnity against actual monetary loss and any payment under it will not exceed the amounts detailed in paragraph 1.1 of the policy, which should be referred to.

6. Cancellation Terms.

Because the interests of a number of persons may all be protected at the same time by insurance given under the Search Report Insurance Policy in relation to each individual property, no person insured under the policy will have the right to cancel the insurance without the written agreement of all other persons who might benefit from the insurance. No refund of premium will be payable. See paragraph 17 of the policy.

7. Term of the policy.

Cover under insurance given under the Search Report Insurance Policy protects only the persons specified in the policy as an "Insured" and does not continue to protect any purchaser from an insured. Each person who is insured should check periodically to ensure that the policy still meets their needs. Please refer to paragraph 2 of the policy.

8. Claims.

Anyone wishing to claim under the insurance given under the Search Report Insurance Policy must advise First Title in writing as soon as possible after becoming aware of any claim or circumstance which might entitle them to make a claim. Please see paragraph 5 of the policy.

9. Queries.

If you require further information or have any queries regarding the policy you should contact First Title Insurance plc at Title House, 33-39 Elmfield Road, Bromley, Kent BR1 1LT.

10. Complaints.

If you wish to complain about any aspect of the service you have received regarding the insurance policy, please contact First Title Insurance plc at Title House, 33-39 Elmfield Road, Bromley, Kent BR1 1LT . Please quote the policy reference. SRIP/05/07.

If your complaint is not dealt with to your satisfaction you may complain to the Financial Ombudsman Service, South Quay Plaza, 183 Marsh Wall, London E14 9SR. Telephone: 0845 080 1800. There are some instances where the Financial Ombudsman Service cannot consider your complaint. Making a complaint will not prejudice your right to take legal proceedings.

11. Compensation

Should First Title Insurance plc become unable at any time to meet claims against it the Financial Services Compensation Scheme will protect your interests. There are maximum levels of compensation you can receive under the Scheme. You will normally be covered for at least 90% of the payment due under your policy.

12. Price

The premium for the Search Report Insurance is £5.25 including IPT

The Code's main commitments

The Search Code's key commitments say that search organisations will:

- Provide search reports which include the most up-to-date available information when compiled and an accurate report of the risks associated with the property.
- Deal promptly with queries raised on search reports.
- Handle complaints speedily and fairly.
- At all times maintain adequate and appropriate insurance cover to protect you.
- Act with integrity and ensure that all search services comply with relevant laws, regulations and industry standards.

Keeping to the Search Code

How search organisations maintain compliance with the Search Code is monitored independently by the Property Codes Compliance Board (PCCB). If you have a query or complaint about your search, you should raise it directly with the firm, and if appropriate ask for your complaint to be considered under their formal internal complaints procedure. If you remain dissatisfied with the firm's final resolution after your complaint has been formally considered or if the firm has exceeded the response timescales, you may refer your complaint to the Independent Property Codes Adjudication Scheme (IPCAS). IPCAS can award compensation of up to £5,000 to you if it finds that you have suffered loss as a result of your search provider failing to keep to the Code.

Please note that all queries or complaints regarding your search should be directed to your search provider in the first instance, not to IPCAS.

FULL SEARCH CODE

Question 3 - Where relevant, please include a copy of an extract from the public sewer map.

A copy of an extract from the public sewer map is included in which the location of the property is identified.

1. Public Sewers are defined as those for which the Sewerage Undertaker holds statutory responsibility under the Water Industry Act 1991.
2. The Sewerage Undertaker is not generally responsible for rivers, watercourses, ponds, culverts or highway drains. If any of these are shown on the copy extract they are shown for information only.
3. Sewers indicated on the extract of the public sewer map as being subject to an agreement under section 104 of the Water Industry Act 1991 are not an 'as constructed' record. It is recommended that these details are checked with the developer.
4. Assets other than public sewers may be shown on the copy extract, for information only.

Question 4 - Does foul water from the property drain to a public sewer?

Records indicate that foul water from the property drains to a public sewer.

1. Sewerage Undertakers are not responsible for private drains and sewers that connect the property to the public sewerage system, and do not hold details of these.
2. The property owner will normally have sole responsibility for private drains serving the property and may have shared responsibility, with other users, if the property is served by a private sewer which also serves other properties. These may pass through land outside of the control of the seller and the buyer may wish to investigate whether separate rights or easements are needed for their inspection, repair or renewal.
3. If foul water does not drain to the public sewerage system the property may have private facilities in the form of a cesspit, septic tank or other type of treatment plant.
4. An extract from the public sewer map is enclosed. This will show known public sewers in the vicinity of the property and it should be possible to estimate the likely length and route of any private drains and/or sewers connecting the property to the public sewerage system.

Question 5 - Does surface water from the property drain to a public sewer?

Records indicate that surface water from the property does drain to a public sewer.

1. Sewerage Undertakers are not responsible for private drains and sewers that connect the property to the public sewerage system, and do not hold details of these.
2. The property owner will normally have sole responsibility for private drains serving the property and may have shared responsibility, with other users, if the property is served by a private sewer which also serves other properties. These may pass through land outside of the control of the seller and the buyer may wish to investigate whether separate rights or easements are needed for their inspection, repair or renewal.
3. In some cases, Sewerage Undertakers' records do not distinguish between foul and surface water connections to the public sewerage system. If on inspection the buyer finds that the property is not connected for surface water drainage the property may be eligible for a rebate of the surface water charge. Details can be obtained from the Sewerage Undertaker.
4. If surface water does not drain to the public sewerage system the property may have private facilities in the form of a soakaway or private connection to a watercourse.
5. An extract from the public sewer map is enclosed. This will show known public sewers in the vicinity of the property and it should be possible to estimate the likely length and route of any private drains and/or sewers connecting the property to the public sewerage system.

Question 6 - Are any sewers or lateral drains serving or which are proposed to serve the property the subject of an existing adoption agreement or an application for such an agreement?

Records confirm that sewers serving the development, of which the property forms part, are

not the subject of an existing adoption agreement or an application for such an agreement.

1. Where the property is part of a very recent or ongoing development and the sewers are not the subject of an adoption application, buyers should consult with the developer to ascertain the extent of private drains and sewers for which they will hold maintenance and renewal liabilities.
2. Final adoption is subject to the developer complying with the terms of the adoption agreement under Section 104 of the Water Industry Act 1991.
3. This enquiry is of interest to purchasers of new homes who will want to know whether or not the property will be linked to a public sewer.

Question 7 - Does the public sewer map indicate any public sewer, disposal main or lateral drain within the boundaries of the property?

The public sewer map indicates that there are no public sewers, disposal mains or lateral drains within the boundaries of the property. However, it has not always been a requirement for such public sewers, disposal mains or lateral drains to be recorded on the public sewer map. It is therefore possible for unidentified sewers, disposal mains or lateral drains to exist within the boundaries of the property.

1. The boundary of the property has been determined by reference to the Ordnance Survey record.
2. The presence of a public sewer within the boundary of the property may restrict further development within that boundary. The Sewerage Undertaker has a statutory right of access to carry out work on its assets, subject to notice. This may result in employees of the Sewerage Undertaker or its contractors needing to enter the property to carry out work.
3. Sewers indicated on the extract of the public sewer map as being subject to an agreement under Section 104 of the Water Industry Act 1991 are not an 'as constructed' record. It is recommended these details be checked with the developer.

Question 8 - Does the public sewer map indicate any public sewer within 30.48 metres (100 feet) of any buildings within the property?

The public sewer map included indicates that there is a public sewer within 30.48 metres (100 feet) of a building within the property.

1. The presence of a public sewer within 30.48 metres (100 feet) of the building(s) within the property can result in the Local Authority requiring a property to be connected to the public sewer.
2. Sewers indicated on the extract of the public sewer map as being subject to an agreement under Section 104 of the Water Industry Act 1991 are not an 'as constructed' record. It is recommended that these details are checked with the developer.
3. The measure is estimated from the Ordnance Survey record, between the building(s) within the boundary of the property and the nearest public sewer.

Question 9 - Has a sewerage undertaker approved or been consulted about any plans to erect a building or extension on the property over or in the vicinity of a public sewer, disposal main or drain?

There are no records in relation to any approval or consultation about plans to erect a building or extension on the property over or in the vicinity of a public sewer, disposal main or drain. However, the sewerage undertaker might not be aware of a building or extension on the property over or in the vicinity of a public sewer, disposal main or drain.

1. Buildings or extensions erected over a sewer in contravention of building controls may have to be removed or altered.
2. Prior to 1997 Yorkshire Water had sewerage arrangements with the Local Authorities as a result of which there may have been consultations which Yorkshire Water are not aware of. Since 1st April 2002 building over or near to a public sewer has been controlled by Requirement H4 of The Building Regulations 2000 but Yorkshire Water only acts as a consultee and final approval remains with the Building Inspectorate.

Question 10 - Where relevant, please include a copy of an extract from the map of

waterworks.

A copy of an extract from the map of waterworks is included in which the location of the property is identified.

1. The "water mains" in this context are those which are vested in and maintainable by the Water Undertaker under statute.
2. Assets other than vested water mains may be shown on the plan, for information only.
3. Water Undertakers are not responsible for private supply pipes connecting the property to the public water main and do not hold details of these. These may pass through land outside of the control of the seller, or may be shared with adjacent properties. The buyer may wish to investigate whether separate rights or easements are needed for their inspection, repair or renewal.
4. If an extract of the public water main record is enclosed, this will show known public water mains in the vicinity of the property. It should be possible to estimate the likely length and route of any private water supply pipe connecting the property to the public water network.

Question 11 - Is any water main or service pipe serving or which is proposed to serve the property the subject of an existing adoption agreement or an application for such an agreement?

Records confirm that water mains or service pipes serving the property are not the subject of an existing adoption agreement or an application for such an agreement.

This enquiry is of interest to purchasers of new homes who will want to know whether or not the property will be linked to the mains water supply.

Question 12 - Who are the sewerage and water undertakers for the area?

Yorkshire Water Services Limited, Western House, Halifax Road, Bradford BD6 2SZ is the sewerage undertaker for the area and Yorkshire Water Services Limited, Western House, Halifax Road, Bradford BD6 2SZ is the water undertaker for the area.

Question 13 - Is the property connected to mains water supply?

Records indicate that the property is connected to mains water supply.

Question 14 - Are there any water mains, resource mains or discharge pipes within the boundaries of the property?

The map of waterworks does not indicate any water mains, resource mains or discharge pipes within the boundaries of the property.

1. The boundary of the property has been determined by reference to the Ordnance Survey record.
2. The presence of a public water main within the boundary of the property may restrict further development within it. Water Undertakers have a statutory right of access to carry out work on their assets, subject to notice. This may result in employees of the Water Undertaker or its contractors needing to enter the property to carry out work.

Question 15 - What is the current basis for charging for sewerage and water services at the property?

The charges are based on the rateable value of the property of £94.00 and the charge for the current financial year is £277.68.

1. Water and Sewerage Companies full charges are set out in their charges schemes which are available from the Company free of charge upon request.
2. The Company may install a meter where a buyer makes a change of use of the property or where the buyer

uses water for:

- watering the garden, other than by hand
 - automatically replenishing a pond or swimming pool with a capacity greater than 10,000 litres
 - a bath with capacity greater than 230 litres
 - a reverse osmosis unit
3. The Water Industry Act 1991 Section 150, The Water Resale Order 2001 provides protection for people who buy their water or sewerage services from a person or company instead of directly from a water or sewerage company.
Details are available from the Office of Water Services (OFWAT) Web Site: www.ofwat.gov.uk

Question 16 - Will the basis for charging for sewerage and water services at the property change as a consequence of a change of occupation?

There will be no change in the current charging arrangements as a consequence of a change of occupation.

1. Water and Sewerage Undertakers full charges are set out in their charges schemes which are available from the Company free of charge upon request.
2. The Water Undertaker may install a meter where a buyer makes a change of use of the property or where the buyer uses water for:
 - watering the garden, other than by hand
 - automatically replenishing a pond or swimming pool with a capacity greater than 10,000 litres
 - a bath with capacity greater than 230 litres
 - a reverse osmosis unit
3. It should be noted that a change in the charging basis is not expected if there is no change in use of the property. In the event of any doubt please contact the company responsible for billing the property as detailed in questions 19 and 20.

Question 17 - Is a surface water drainage charge payable?

Records confirm that a surface water drainage charge is payable for the property at £37.34 for each financial year

1. Where surface water from a property does not drain to the public sewerage system no surface water drainage charges are payable.
2. Where surface water charges are payable but on inspection the property owner believes that surface water does not drain to the public sewerage system, application can be made to the Company to review the charging situation.
3. It should be noted that surface water drainage charges increase annually with effect from the 1st April.

Question 18 - Please include details of the location of any water meter serving the property.

Records indicate that the property is not served by a water meter.

Where the property is not served by a meter and the customer wishes to consider this method of charging they should contact :

Yorkshire Water Services Ltd., PO Box 52, Bradford BD3 7YD

Question 20 - Who bills the property for water services?

The property is billed for water services by:
Yorkshire Water Services Ltd., PO Box 52, Bradford BD3 7YD
0845 1 24 24 24
www.yorkshirewater.com.

Don't forget to let us know when you've moved. Go on-line at www.yorkshirewater.com/moving - it's quick and easy!

Question 21 - Is the dwelling-house which is or forms part of the property at risk of internal flooding due to overloaded public sewers?

The property is not recorded as being at risk of internal flooding due to overloaded public sewers.

1. A sewer is "overloaded" when the flow from a storm is unable to pass through it due to a permanent problem (eg flat gradient, small diameter). Flooding as a result of temporary problems such as blockages, siltation, collapses and equipment or operational failures are excluded.
2. "Internal flooding" from public sewers is defined as flooding which enters a building or passes below a suspended floor. For reporting purposes buildings are restricted to those normally occupied and used for residential, public, commercial, business or industrial purposes.
3. At Risk properties are those that the Sewerage Undertaker is required to include in the Regulatory Register that is reported annually to the Director General of Water Services. These are defined as properties that have suffered or are likely to suffer internal flooding from public foul, combined or surface water sewers due to overloading of the sewerage system more frequently than the relevant reference period (either once or twice in ten years) as determined by the Sewerage Undertaker's reporting procedure.
4. Flooding as a result of storm events proven to be exceptional and beyond the reference period of one in ten years are not included on the At Risk register.
5. Properties may be at risk of flooding but not included on the Register where flooding incidents have not been reported to the Sewerage Undertaker.
6. Public sewers are defined as those for which the Sewerage Undertaker holds statutory responsibility under the Water Industry Act 1991.
7. It should be noted that flooding can occur from private sewers and drains which are not the responsibility of the Sewerage Undertaker. This report excludes flooding from private sewers and drains and the Sewerage Undertaker makes no comment upon this matter.

Question 22 - Is the property at risk of receiving low water pressure or flow?

Records confirm that the property is not recorded on a register kept by the water undertaker as being at risk of receiving low water pressure or flow.

1. It should be noted that low water pressure can occur from private water mains, private supply pipes (the pipework from the external stop cock to the property) or internal plumbing which are not the responsibility of the Water Undertaker. This report excludes low water pressure from private water mains, supply pipes and internal plumbing and the Water Undertaker makes no comment upon this matter.
2. "Low water pressure" means water pressure below the regulatory reference level which is the minimum pressure when demand on the system is not abnormal.
3. Water Undertakers are required to include in the Regulatory Register that is reported annually to the Director General of Water Services properties receiving pressure below the reference level, provided that allowable exclusions do not apply (i.e. events which can cause pressure to temporarily fall below the reference level).
4. The reference level of service is a flow of 9 litres/minute at a pressure of 10metres head on the customer's side of the main stop tap (mst). The reference level of service must be applied on the customer's side of a meter or any other company fittings that are on the customer's side of the main stop tap. The reference level applies to a single property. Where more than one property is served by a common service pipe, the flow assumed in the reference level must be appropriately increased to take account of the total number of properties served. For two properties, a flow of 18 litres/minute at a pressure of 10metres head on the customers' side of the mst is appropriate. For three or more properties the appropriate flow should be calculated from the standard loadings provided in BS6700 or Institute of Plumbing handbook.
5. Allowable exclusions

- The Company is required to include in the Regulatory Register properties receiving pressure below the reference level, provided that allowable exclusions listed below do not apply
6. Abnormal demand: This exclusion is intended to cover abnormal peaks in demand and not the daily, weekly or monthly peaks in demand which are normally expected. Companies should exclude from the reported DG2 figures properties which are affected by low pressure only on those days with the highest peak demands. During the report year companies may exclude, for each property, up to five days of low pressure caused by peak demand.
 7. Planned maintenance: Companies should not report under DG2 low pressures caused by planned maintenance. It is not intended that companies identify the number of properties affected in each instance. However, companies must maintain sufficiently accurate records to verify that low pressure incidents that are excluded from DG2 because of planned maintenance are actually caused by maintenance.
 8. One-off incidents: This exclusion covers a number of causes of low pressure; mains bursts; Failures of company equipment (such as PRVs or booster pumps); Firefighting; and Action by a third party. However, if problems of this type affect a property frequently, they cannot be classed as one-off events and further investigation will be required before they can be excluded.
 9. Low pressure incidents of short duration: Properties affected by low pressures which only occur for a short period, and for which there is evidence that incidents of a longer duration would not occur during the course of the year, may be excluded from the reported DG2 figures.

Question 23 - Please include details of a water quality analysis made by the water undertaker for the water supply zone in respect of the most recent calendar year.

The analysis confirmed that tests met the standards prescribed by the 2000 Regulations or the 2001 Regulations, except that :

1 of 147 tests failed to meet the standard for Total Coliforms. The infringement in respect of Total Coliforms was isolated and not indicative of contamination of the system. Resamples taken were free from Total Coliforms. The infringement noted presents no hazard to public health.

1. Water Undertakers have a duty to provide wholesome water that meets the standards of the Water Supply (Water Quality) Regulations 2000.
2. In England and Wales these Regulations implement the requirements of the European Drinking Directive 98/83/EC. The 2000 Regulations impose standards for a range of parameters, which are either health based to ensure the water is safe to drink or to ensure the water is aesthetically acceptable. They also require that drinking water should not contain any element, organism or substance (whether or not a parameter) at a concentration or value which would be detrimental to public health
3. Water quality is normally tested at the tap used for domestic consumption normally in the kitchen. However, the householder is responsible for any of deterioration in water quality that is a result of the domestic distribution system (the supply pipe and the plumbing within the property) that results in the standards not being met.
4. If there are concerns that lead pipes within the property may be causing high levels of lead in your drinking water please contact your Water Undertaker for further advice.
5. The Water Undertaker undertakes a monitoring programme to establish water quality that includes random sampling from domestic properties. It will notify the consumers of any failures to meet the water quality standards that are due to the condition or maintenance of the domestic distribution system.
6. The data collected by the Water Undertaker is subject to external review by the drinking water inspectorate (DWI) and by local and health authorities. In addition to reviewing quality data the DWI also carry out audits during which any area of the company's operational can be examined. Further information may be found at www.dwi.gov.uk

Question 24 - Please include details of any departures, authorised by the Secretary of State under Part 6 of the 2000 Regulations from the provisions of Part 3 of those Regulations.

There are no such authorised departures for the water supply zone.

Authorised departures are not permitted if the extent of the departure from the standard is likely to constitute a potential danger to human health.

Please contact the water company detailed in Q12 if you require further information.

Question 25 - Please state the distance from the property to the nearest boundary of the nearest sewage treatment works.

The nearest sewage treatment works and its' distance from the property is as shown in the public sewer map supplied.

1. The nearest sewage treatment works will not always be the sewage treatment works serving the catchment within which the property is situated.
2. The Sewerage undertakers records were inspected to determine the nearest sewage treatment works. It should be noted therefore that there may be a private sewage treatment works closer than the one detailed that has not been identified.

Appendix 1 General Interpretation

1. (1) In this Schedule—

“the 1991 Act” means the Water Industry Act 1991(a);

APPENDIX 2 - DRAINAGE & WATER ENQUIRY (DOMESTIC) TERMS AND CONDITIONS

The Customer the Client and the Purchaser are asked to note these terms, which govern the basis on which this drainage and water report is supplied

Definitions

‘The Company’ means the water service company or their data service provider producing the Report.

‘Order’ means any request completed by the Customer requesting the Report.

‘Report’ means the drainage and/or water report prepared by The Company in respect of the Property.

‘Property’ means the address or location supplied by the Customer in the Order.

‘Customer’ means the person, company, firm or other legal body placing the Order, either on their own behalf as Client, or, as an agent for a Client.

‘Client’ means the person, company or body who is the intended recipient of the Report with an actual or potential interest in the Property

‘Purchaser’ means the actual or potential purchaser of an interest in the Property including their mortgage lender.

“the Regulations” means the Home Information Pack (No. 2) Regulations 2007.

Agreement

1.1 The Company agrees to supply the Report to the Customer and to allow it to be provided to the Client and the Purchaser subject, in each case, to these terms. The scope and limitations of the Report are described in paragraph 2 of these terms. The Customer shall be responsible for bringing these terms to the attention of the Client and the Purchaser as necessary.

1.2 The Customer, the Client and the Purchaser agree that the placing of an Order for a Report and the subsequent provision of a copy of the Report to the Purchaser indicates their acceptance of these terms.

The Report

2.1 Whilst The Company will use reasonable care and skill in producing the Report, it is provided to the Customer the Client and the Purchaser on the basis that they acknowledge and agree to the following:-

2.2. The information contained in the Report can change on a regular basis so The Company cannot be responsible to the Customer the Client and the Purchaser for any change in the information contained in the Report after the date on which the Report was first produced and sent to the Customer.

2.3. The Report does not give details about the actual state or condition of the Property nor should it be used or taken to indicate or exclude actual suitability or unsuitability of the Property for any particular purpose, or relied upon for determining saleability or value, or used as a substitute for any physical investigation or inspection. Further advice and information from appropriate experts and professionals should always be obtained.

2.4. The information contained in the Report is based upon the accuracy of the address supplied to The Company.

2.5. The Report provides information as to the location & connection of existing services and other information required to comply with the provisions of the Home Information Pack Regulations in relation to drainage and water enquiries and should not be relied on for any other purpose. The Report may contain opinions or general advice to the Customer, the Client and the Purchaser which The Company cannot ensure is accurate, complete or valid and for which it accepts no liability.

2.6. The position and depth of apparatus shown on any maps attached to the Report are approximate, and are furnished as a general guide only, and no warranty as to their correctness is given or implied. The exact positions and depths should be obtained by excavation trial holes and the maps must not be relied on in the event of excavation or other works made in the vicinity of The Company’s apparatus.

Liability

3.1 The Company shall not be liable to the Customer, the Client or the Purchaser for any failure defect or non-performance of its obligations arising from any failure of or defect in any machine, processing system or transmission link or anything beyond The Company’s reasonable control or the acts or omissions of any party for whom The Company is not responsible.

3.2 Where a report is requested for an address falling within a geographical area where two different companies separately provide Water and Sewerage Services, then it shall be deemed that liability for the information given by either company will remain with that company in respect of the accuracy of the information supplied.

A company that supplies information which has been provided to it by another company for the purposes outlined in this agreement will therefore not be liable in any

way for the accuracy of that information and will supply that information as agent for the company from which the information was obtained.
